

John Stouffer has more than 20 years' experience with Oracle database administration and more than 16 years' experience supporting Oracle's E-Business Suite Applications environments (Releases 8 - 12.1), including architectural design, installation, implementations, upgrades and system assessments in the federal, public and commercial industries.

John is an Oracle ACE for his contributions in the area of Oracle Applications. John is the past chair of the OAUG Upgrade SIG for ten years, was the founding chair for OAUG's Fusion Council and actively participates in other GEO and SIG activities.

John was recognized as the OAUG Member of the Year for 2004 for his activities on behalf of the international Oracle Applications User Group. John has published three books on Release 11 and Release 12 and contributed numerous articles, presentations and moderated many panels at various OAUG and Oracle events. He was chosen by Oracle to be a featured speaker at Oracle Open World 2004 and also the keynote Speaker for Oracle Japan in 2007.

For the last two years, Oracle has invited John to participate in the Oracle Corporation Release 12 Upgrade panels as an industry expert. John was most recently voted onto the Oracle Application User Group Board for 2010-2011 and serves on the Board's executive committee.
